Ksenija,

Yes, the owner would be open to giving tours of our plant. Our Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))] location is where we do the majority of the processing, It is also where we bag the finished product. If you want to see both sites, they are Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))] from each other. Let me know if you want to schedule a day to come out.

Thank you,

Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

Hi there,

A couple of weeks ago, we spoke about the US EPA's federal research on the use of tire crumb in sports fields. I mentioned that as part of the federal action plan, the U.S. EPA, and potentially CDC, too, will be visiting a few manufacturing facilities to observe the recycling process. We are looking to determine

good candidates for a tour planned in the second half of May or very early June. I spoke to you about some of [REDACTED] processing, but did not check:

- Whether the owner would be open to having the EPA, and possibly, CDC and/or CPSC come in for an observational tour?
- How much of the market for tire crumb infill for sports turf [REDACTED] covers (a rough estimate would be fine)?
- What is [REDACTED] best location to see the processing of tires into tire crumb?

Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))] [REDACTED]

Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))] [REDACTED]

Thank you so much and all the best,
Ksenija
